

Storytelling for Kindergartens, Schools & Centers

Our skilled and experienced storytellers will read out loud favourite books to ignite a love of reading in your students! Decades of research have proven that reading is the most powerful and effective tool in language acquisition. Listening to stories is the first step.

Why is storytelling so important?

"The single most important activity for building the knowledge required for eventual success in reading, is reading aloud to children." *Becoming a Nation of Readers: The Report of the Commission of Reading*

Storytelling is the oldest form of teaching and one of the best ways for kids to develop an understanding of the world around us, to make connections between their lives and others. Not only do stories create a sense of wonder at the world, but they develop empathy amongst the listeners.

What you get:

Our professional storytellers will read aloud favourite books to ignite a love of reading in your students! The books are carefully selected based on age, theme and interests of the students. The session is lively and interactive to enhance vocabulary, attention span, listening skills and enthusiasm for reading. Tips on how to make time for reading at home in their busy schedules will be shared.
